

HRANKO Ltd.

member of HRANTECHMACH-Association of companies for food processing machine - building in Bulgaria

Hranko will attempt to seek industry clients whose projects require high value-added industrial expertise in all or some facets of research, development, engineering and marketing.

Our company philosophy is to work in close partnership with clients and suppliers with an ongoing commitment to designing quality-driven, efficient and cost-effective outcomes. Consequently we will strive to offer the best fit solution to achieve the balance between top end technology and practical application to achieve results within our client's financial constraints.

Furthermore, it is our purpose to derive solutions that allow identified products easy access to market through intellectual innovation and design. Moreover, it is our objective to produce these solutions in confidence and within budget. It is our ethos that all solutions are to be derived in a manner that does not contravene any professional ethics or compromise suppliers or clients in any manner. In addition we will not knowingly compromise our competitors in that we will strive to win our contracts through a principled and righteous process.

We view and value our reputation highly and by continually upgrading our own technical competencies and employing the best people we will achieve our clients' goals. Subsequently we believe that this policy will be rewarded with ongoing referrals and bring us satisfaction through our clients' successes.
